Event Poster/Brochure:

Summary

On International Happiness Day, a happiness survey was conducted on a college campus, which was a great success.

The survey aimed to gauge the level of happiness and satisfaction among the students and faculty members. The survey included questions about various aspects of life, such as mental well-being, level of happiness, botherations in life etc. Chocolates were shared with everyone who participated with the intention of spreading joy and happiness. A significant number of participants took part in the survey, reflecting a positive response from the college community. The results of the survey showed that the majority of the participants reported feeling happy and content with their lives.

The college community was encouraged to continue prioritizing happiness and well-being as an integral part of the college experience. The college administration was pleased with the outcome of the survey and planned to use the results to improve the overall happiness and well-being of the campus community by launching the HAPPINESS CLUB Under the PAIE CELL.

HAPPINESS CLUB aims to shape the perceptive of a students life to experience Inner Peace and to express Outer Dynamism!

The HAPPINESS CLUB kick started it's first program "YES!+, Youth Empowerment Skills workshop" which attracted 150+ participants to take a step towards a healthier and happier lifestyle.
