Collecting the plastic waste in campus

SUMMARY

It's high time to create a Plastic Bag Free College ! The International Plastic Bag Free Day is a unique opportunity to spread the word that a plastic bag free world is possible and that sound environmental alternatives to single use plastic bags are available

We know that plastic bags are non-biodegradable and have become a massive threat to our ecosystem. Plastic bags take hundreds of years to decompose and have started affecting the biodiversity of our planet.

The easy convenience of plastic bags is now hurting and causing unnatural deaths among wild animals and aquatic species.

Plastic bags have become an integral part and a natural choice of everyone's life due to its multipurpose usage. However, its convenience comes with significant drawbacks, and one of its biggest drawbacks is that its pollution is creating havoc on the planet globally.

Finally to make the **srkr engineering college** plastic free
